

**Living near nuclear power  
increases your risk of cancer.**

**A new Harvard study found that people who live  
near nuclear reactors in Massachusetts have  
"significantly increased cancer incidence."**

Alwadi, et al, "Residential proximity to nuclear power plants  
and cancer incidence in Massachusetts, USA (2000-2018)"  
Environmental Health, December 2025

***Is it ethical to expose New Yorkers  
to a proven carcinogen?***
